Digital Europe - priority of the Latvian Presidency

Gatis Ozols
Deputy Chairman of the Telecommunications and Information Society Working Party (ICT matters)
Latvia
Latvia

1,9 mio population

3rd fastest internet in EU

3 of 4 citizens use i-banks

89% of companies return forms over the internet

Digital Access Right
Government and Public Utility Services
Priorities of Latvian Presidency

- Trust in Digital Single Market
- Public Sector Modernisation
- Security in Digital Environment

Competitive Europe
Digital Europe
Engaged Europe
Presidency Agenda
Our approach- Priorities and Focus

Legislative
Progress with current files

Non Legislative
Streamline digital in all sectors
Progress with high priority legislative files

Network and Information Security Directive

Telecom Single Market Regulation («Connected continent»)

Data protection Regulation and Directive
Public sector modernisation = digital transformation

How we serve the citizen
How we shape the future
All legislative acts on national and EU level should fit for digital age

Digital by default

Every public service and process – eEnabled
Every sector and policy area – ICT boosted
Digital transformation is everybody’s business
Preconditions for digital transformation

Real leadership
Culture of collaboration and sharing
Contemporary Skills
Licence to innovate!
Our approach – everyone is involved
